Gray Cabinet

DREAM STAR FEATURES

SOFT TOUCH™ CONTROLS

State-of-the-art digital electronic control with LCD temperature and filtration readout. All functions are located at your fingertips.

ENERGY SAVER SYSTEM™

Heat is generated by the spa's power equipment inside the cabinet. This heated air is captured and returned to the spa's water. This continually helps maintain the water temperature without running the heater as often. The heat recovery system saves you money by reducing electrical cost.

MAINTENANCE-FREE WEATHER GUARD™ CABINET

Our synthetic cabinets are known for their rich, beautiful appearance and long lasting durability. Fully removable access panels make service a breeze.

EASY TO SET UP

No electrician required. Plugs into any standard 120V/15Amp outlet. No plumbing required, just fill with a garden hose, GFCI safety breaker comes built-in.

EASY TO MAINTAIN

Automatic filter cycles. Automatic heating system. Automatic freeze protection.

SPACE-SAVING DESIGN

Designed to pass easily through most interior and exterior doorways.

Five Year Shell*

The shell is warranted against water leakage caused by a defect in material for five years from the original date of purchase.

Three Year Surface*

QCA warrants the Acrylic Plus™ surface against blistering, cracking, or delaminating for three years from the original date of purchase.

Three Year Plumbing*

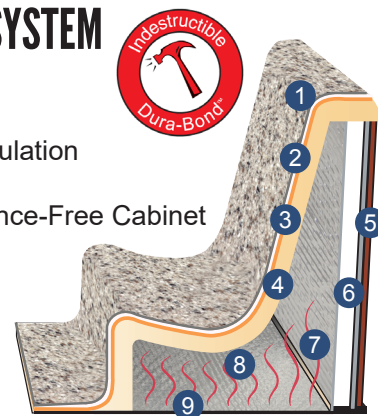

Spa plumbing, fittings, pipes, drains, and fixtures are warranted against leaking due to defects in materials for three years from the original date of purchase.

PATENTED DURA-BOND™

This four layer, patented strengthening process combines the beauty of Lucite Plus Acrylic™ with a layer of ABS for shell strength and integrity. Then a double strengthening material is applied. This high density material has all the strengthening properties of fiberglass without the environmental concerns.

SHELL STRENGTHENING SYSTEM

1. Acrylic Plus™
2. ABS
3. Dura-Bond™ with Foam Insulation
4. Polyethylene Foam
5. Weather Guard™ Maintenance-Free Cabinet
6. Polystyrene Insulation
7. Radiant Foil Insulation
8. Thermal Air Barrier
9. Moisture-Resistant Polyethylene Flooring
